Observations... From Around Town

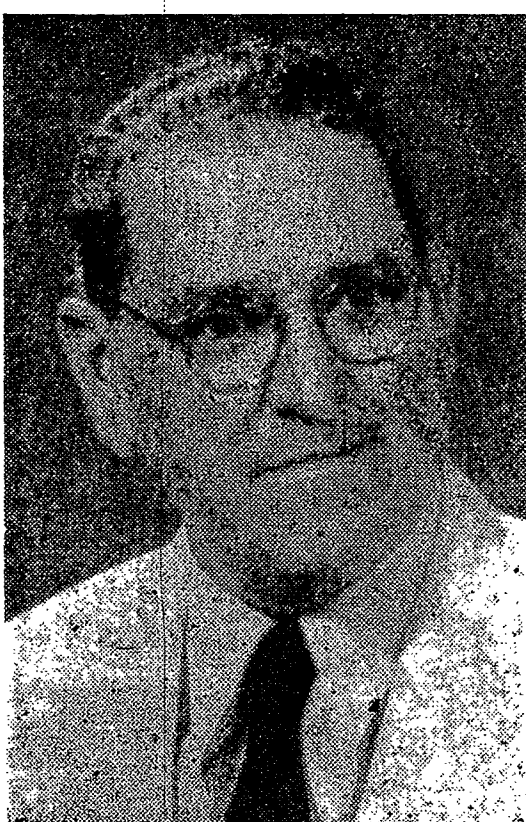

(BY JAY WHOZIT)

Like everything else the elections have come and gone and are almost forgotten, but did you know that the two newly-elected members of the City Council, Warren Carver, Mayor-elect and Sylvan J. Ladner, Jr., Commissioner-elect are the two youngest men ever to be elected to these important positions of trust... more votes were polled in the second primary than in the first... the Bay St. Louis Rockchaws, American Legion-sponsored baseball team won from Picaune last Friday by the score of 6 to 5 to win the District title for this section, and are preparing for their next encounter which has not yet been announced... the Bay St. Louis Little Theatre will present their first play in their new playhouse on Boardman Avenue on July 29-30-31, when they present the "Night of January 16th"... if the robberies of the past few weeks continue Bay St. Louis will be soon called the "Little Chicago" of the South... the contract for the rebuilding of the burned section of the highway bridge was let on last Friday, and work was to begin this week, to be finished, according to the terms of the contract, in sixty days, which would be about the latter part of September... in the meantime the highway department is redecking a large portion of this side, which when it is all finished, should put the bridge in A-1 shape for quite a number of years... if you have not yet sent in your check for this year's membership of Commerce membership, do so now, as our town really needs the help a good live chamber of Commerce can give it... from activity in the neighborhood of deMontluzin Avenue and the beach this week, we are inclined to believe that the talk about a new movie theatre in town is more than mere rumor... the favorite topic of conversation now seems to be the terrific heat but since there is nothing we can do about it we will just have to take it in stride... that coat of oil that was put on the temporary beach road seems to have done more harm than good, because it is breaking up in large pieces and leaving big holes, and boy is that tough on our jalopy!... we hate to be monotonous but we are going to keep calling the city officials' attention to the garbage situation until something is done about it we are certain that in one section of town, garbage has not been collected even one time this week up to now... in 1900 the average wage paid throughout the nation was less than \$2.00 a day now it is about that much an hour... Mississippi was the largest producer of pulp wood in the South in 1946, with 1,238,000 cords... the officials of the Southern Bell Telephone Company have been cited to appear before a September meeting of the Mississippi Public Service Commission to review the Company's \$1,500,000 rate increase case, which had never been approved by the commission... Norman Hall is the new assistant football coach for Bay High School, which opens its 1948 season against Saint Stanislaus sometime in September... the Town of Waveland has purchased some new fire-fighting equipment and will have it on parade for the general public on July 25th, which date has been proclaimed Fire Prevention Day in Waveland.

Circle No. 1 Womans Missionary Society Met Tuesday Afternoon

Circle No. 1 of the Womans Missionary Society of the First Baptist Church met on Tuesday afternoon at the home of Miss May H. Edwards.

The topic for study was Brotherhood in the Kingdom and the devotion was brought to the group by Mrs. Claude Broach.

Miss Sally Pearson discussed Kansas City Friends of Israel. Mrs. Wilson W. Weber had the subject: "Hope Again at Pier 62"; Mrs. J. J. Losch brought a message from "I Played Tourist."

The circle will meet in August with Mrs. W. W. Weber.

Mayor Garfield Ladner of Waveland has declared Sunday, July 25, as FIRE PREVENTION DAY. The day will be commemorated by a parade and demonstration of Waveland's new fire equipment. The parade, to be led by the Mayor and Town officials, the Citizens Rehabilitation Committee and Residents, will start from the Town Hall at 3:00 P. M. Stopping at intersections to demonstrate the equipment, the route will be out Coleman to Beach, westward to Oak, out Oak and Waveland Avenue to Railroad, down Railroad to St. Joseph, to Jeff Davis, to Nicholson Ave., to the Beach and back to Coleman and Town Hall.

Upon arrival of the parade at the Town Hall and with the pumper discharging directly out of the lake and discharging through twelve hundred feet of 2 1/2 inch fire hose along Coleman Ave. the residents will be shown the effectiveness of the pumper with such length of hose in use. When sucking from the lake, a four-inch suction hose will be used. All homes within a radius of twelve hundred feet from the lake will be provided complete protection with two streams of 2 1/2 inch hose, with pressure at nozzles which requires three men to hold each nozzle.

For protection of homes beyond the twelve hundred foot radius from the lake a tank truck and emergency tank trailer have been provided.

The nozzles are lever controlled so as to quickly change the stream from solid to a fog mist or spray. The fog spray permits the nozzlemen to go right up to the fire. In addition the fine particles of water comprising the mist are immediately converted into steam which shuts off oxygen and extinguishes a fire much quicker than would be possible with a solid stream and with only one tenth the volume of water required to operate a solid stream.

For fighting fires which have gained headway or in oils and other inflammables, the engine is equipped with special chemical nozzles and a supply of chemicals which can be put into use within three minutes after arrival of the equipment or at any time during a fire.

A great advantage of the chemical is its fireproofing qualities. Adjacent homes can be sprayed with it and completely protected without the use of water streams at all. Thus a fire can be confined to the location of its origin.

Following the parade and demonstration on Sunday a meeting of the Rehabilitation Committee and new Fire Board will be held during the week. The Town Hall will be divided into six fire zones. In each zone a Volunteer Company will be organized, called into a special meeting and permitted to elect its own officers. A fire siren, air or electric, will be provided for each separate zone, located probably on the home of the zone Captain. While the zone siren is calling the zone company to the fire the engine will be enroute from Town Hall. Upon arrival within the zone the engine will then be completely under the zone company officers, who will be trained in fire fighting. All members of other zone companies who respond will be under the direction of the zone officers in which the fire is located.

The new fire equipment and the organization of the volunteer fire department has been made possible by the untiring efforts of the Citizens Rehabilitation Committee organized immediately following the hurricane of last year. The Committee has been the center around which the residents rallied after the hurricane to work as a team in good spirit and cooperation for the interest and welfare of all. They have merited the thanks and earned the respect of all residents, and have worked closely with the town's constituted authorities and in a spirit of cooperation which has made planning easier and execution quicker.

1. The Citizens Rehabilitation Committee still has many plans under consideration and as time and opportunity permit, these additional plans for the further improvement of the community will be made known and placed in operation. Waveland is definitely on the move and at this moment there are none who can foresee how far it will advance during the next several years.

Mayor Ladner stated that he wanted to extend to the members of the Citizens Rehabilitation Committee the sincere thanks and appreciation of the residents and officials of Waveland, for the fine work they have accomplished and the fine spirit they have displayed since their organization.

Rock-A-Chaws Win District Crown In Region 4 Legion Play

The Rockchaw American Legion Baseballers, under the tutelage of Coach Forster Commagere, clinched the District Crown last Friday by trouncing a surprisingly strong Picaune team 6-5. The Rocks, having defeated the Cardinals in their two earlier meetings by scores of 29-0 and 19-3, were almost thrown into a tie for district honors when they went into the last round of a seven inning game on the short end of a 5-4 score.

In the seventh inning Uhle, big gun of the Rockchaw offensive play, came up and tied the score with a home run. The Cardinals were set down in their half of the seventh for no score.

In the extra inning, Levy Ladner was safe on a hit and scored seconds later on a long liner by Buddy Cravatto.

The date and place of Region 4 playoff has not been announced as yet, but local officials should know in the next few days.

COUNTY AGENT NOTES

State College will be host to the farmers of Mississippi during the annual Farm and Home Week, July 27-30.

The program will feature tours, exhibits and addresses by outstanding speakers. In addition, several Mississippi farmers' groups will meet on the campus during Farm and Home Week.

Tours will enable visitors to see the college and Experiment Station beef and dairy herds, poultry, field crops, and fruit and vegetable projects. Exhibits will include a wide range of electrical equipment, farm machinery and other subjects of general interest.

Speakers on the program are Clayton Rand of Gulfport, nationally-known publisher and lecturer and Allan B. Kline, national president of the American Farm Bureau Federation.

Groups planning meetings on State College campus during Farm and Home Week include the Farm Bu-

reau, Cattlemen's Association, Jersey Cattle Club, Artificial Breeders' Cooperative, Council of Farmer Cooperatives, Frozen Locker Association and Seedmen's Association.

Many pastures need to be mowed at this time of year.

Unless pastures are mowed, weeds may thrive and compete for moisture with the desirable pasture grasses. Mowing also prevents heading and aids in eradication of some weeds.

All clippings can be stacked in the pasture for winter feed.

Livestock should be alternated from one pasture to another if there appears to be any danger of overgrazing.

It is time to think about purchasing minerals, complete fertilizer and seed for needed pasture improvements. Lime and silicate slag are now available. Phosphate and basic slag can also be purchased. The nitrate supply is short, so many will use mixed fertilizer for the oats crop.

Seed to buy for pasture improvement or supplementary grazing includes oats, Crimson clover, White Dutch Clover and Dallas grass.

New Schedule of Dog Races At Biloxi

Biloxi, Miss., July 20—The Gulf Coast Kennel Club started a new schedule of greyhound dog racing this week at its track on the Pass Road just west of Biloxi when it provided for a curfew of its programs from six nights a week to three. The races during the next few weeks will be run on Friday, Saturday and Monday nights only.

The revised schedule with the reduction in the number of nights of racing was made necessary because of the small two-week attendance due to the turning of the Bay St. Louis bridge cutting off direct travel to the track from New Orleans and other points west of the bridge on U. S. Highway 90. Because of the increased distance patrons have had to travel to reach the track via the detour may have been unable to attend the races except on weekends. However, bigger and better programs of races will be presented on Friday, Saturday and Monday nights. There will be eleven races on each night of racing instead of the usual ten events. Five of these eleven races will be made up of the "hot-box" or faster dogs entered in the season's meeting, thus faster and more exciting races will be presented.

On Saturday night of this week, the feature race will be the Mobile Handicap, honoring the patrons from Mobile who have been attending the races this season in large numbers. During the past week a series of elimination races were run and the

winners of these races will comprise the entries in the handicap feature.

"GREEN GRASS OF
WYOMING"**

With the completion of "Green Grass of Wyoming," Twentieth Century-Fox's Technicolor filmization of the Mary O'Hara best-seller, petite and green-eyed Peggy Cummins can be certain that she has escaped the fate of most cinema imports—that of being typed. And she has her own versatility to thank for it. Peggy who was raised in Ireland, came to Hollywood about two years ago with an outstanding record of

success on the London stage. Her first picture was "The Late George Apley," in which she was seen as a sweet Boston girl of the 1910 period who had 1947 ideas. Her performance captivated critics and public alike who anxiously awaited her next appearance.

"Moss Rose" called for Peggy to play the role of a London Gaiety Girl, a cockney type who was determined to be a lady, and provided excellent indications of her marked proven qualities. But it is with "Green Grass of Wyoming," which opens Sunday and Monday at the A. & G. Theatre, that Peggy demonstrates her true versatility as an actress, and

Bygone Days

By UDELL FAVRE

April, 1894, work on the college wharf and bath houses was progressing. The wharf was being constructed on scientific plans and at a cost of \$1,500.

Joseph F. Cazeneuve was Sheriff of Hancock County at the time.

It seems as though rumors in those days had some part of truth in them for Mr. Joseph Saucier was appointed postmaster when the Republicans went out of power and the Democrats came in.

Miss Theo Retse and Mr. Belt of New Orleans were married on April 29th.

Bay St. Louis did not have electric lights but no excuse could be offered for the lack of this convenience: the plant was lying idle, and the only thing lacking was a good, live, hustling man to take charge.

The telephone line between Ocean Springs and Bay St. Louis was not a mere dream and was to actually be constructed.

Even in 1894 there were requests for public bath house and dancing pavilion here, but it seems that with time the citizens of today and tomorrow may some day realize the fulfillment of the dream of their ancestors. Bay St. Louis needed and still needs a pavilion for the summer season.

Capt. and Mrs. W. T. Boardman announced the birth of a son on May 29th.

Miss Jessie Cazeneuve gave a birthday party at the home of her parents on Main Street.

The general merchandise store of August Keller was entered by an unknown party and robbed of \$30.00 or \$40.00 worth of miscellaneous articles.

proves that she is eminently qualified to play any type role. In the film Peggy portrays a rancher's daughter familiar with horses, the cattle range, trotting races and the way-out-west type of American life, and a very convincing job she does of it, too. So convincing, in fact, that Director Louis King and Producer Robert Bassler believe that Peggy could attain her greatest popularity in outdoor roles of the type she has in "Green Grass of Wyoming."

But despite the fact that she had the grandest time of her life making the film (location trips that took her to Ohio as well as to the snow-capped mountains of Utah gave her a real look at America) Peggy hopes to continue along the path of contrasting roles. And with her talent and versatility already established, Peggy stands more than an even chance of doing just that.

**TOURNE'S WINS TEN INNING
THRILLER**

Tourne's Auto Parts captured a thriller from Wilmer's Grocery after ten innings of hard play.

Up to the third inning this looked like a free scoring tilt for Tourne's. Wilmer's then came back to tie up the score 5-5. Wilmer's took the lead in the sixth inning but Tourne's again tied it up 7-7.

Wilmer's threatened in the first half of the tenth inning but didn't score. Tourne's winning score came in their part of the tenth inning when Joe Ziegler singled (his 4th hit of the game) to drive in Cyril Piazza to win the ball game 8 to 7.

From the looks of it, this team will be a strong contender in the play-off. L. Ladner was the winning pitcher and J. Favre was the losing pitcher.

**YOU HAVE TO Clean THEM
BEFORE YOU CAN EAT THEM**

Yes, if you could catch them ready for the frying pan... fishing would be an even greater pleasure. But Nature's "gifts" are never free. Nearly all the products of Nature must be processed in one way or another, and then moved to market before they become of real value.

Take natural gas, for example. Our company and others like it are actually giving value to natural gas which would otherwise remain worthless in the ground by gathering, cleaning and moving it to places where people can use it. This is practical conservation, for it stimulates industrial development, creates jobs and benefits all the families in the South.

United Gas invested nearly 60 million dollars in exploration, development and construction during the past three years alone... to assure a continued dependable supply of natural gas for homes, stores and factories all over the South.

"SUMMER HOLIDAY"

Mickey Rooney and Gloria De Haven

Mickey Rooney enacts another "typical American boy" in his newest role as the high school adolescent in "Summer Holiday," M-G-M's nostalgic musical-drama which comes to the A. & G. Theatre this week as one of the season's big Technicolor attractions.

The versatile Rooney talents, including singing and dancing, are given wide scope in his latest characterization as Richard Miller, son of a typical small-town American family and a dreamer who pictures himself an Omar Khayyam in love and a leader of social reforms in school.

The new picture is a musical version of Eugene O'Neill's successful stage play, "Ah, Wilderness!" filmed once before as straight drama. Of interest is the fact that it makes the second time that Rooney's name has appeared in the cast of the O'Neill work.

In 1935, when M-G-M produced the straight dramatic version, Rooney appeared as young Tommy Miller, the part now filled by Butch Jenkins. This time he enacts the pivotal role originally played by Eric Linden.

Others in the large cast include Gloria De Haven, Walter Huston, Frank Morgan, Marilyn Maxwell, Agnes Moorehead and Selena Royle, under the direction of Rouben Mamoulian. The picture was produced by Arthur Freed, with a musical score by Harry Warren and Ralph Blane.

MILLION-DOLLAR MISSISSIPPI
MARKET OPENS ON AUGUST 1ST

Mississippi's new million-dollar Central Farmers Market, which will begin operating August 1st, is expected to draw producers and buyers from a 200-mile radius of Jackson, according to St. Corley, chairman of the Market Board.

Official dedication ceremonies July 31st will mark the opening of the state's first market of this kind, providing: (1) a central outlet for produce, (2) a facility for grading, and (3) a depot for the buyer.

Mississippi's new super-market, patterned after the best facilities of this kind in the nation, will provide farmers with 50 stalls for their produce, plus space for handling an additional 100 trucks. In the merchants' building, approximately 24 sheds will be provided for these buyers, with space for 25 additional buyers' trucks.

All produce which passes through the market will be based on grade, determined by the Market Board and enforced by the Market Master, or his assistant.

Federal-state inspectors will be on the market at all times, available to both the producer and buyer. Federal-state current market news service, via ticker tape, will also be available to market patrons.

The erroneous impression that Mississippi's newest market will be a retail outlet is discarded in the law governing its operation. The Act states that "the Board shall not have the power to acquire, construct, maintain or operate any market or facility which is not operated primarily for the purpose of purchasing and selling at wholesale."

MINIMUM QUANTITIES

The Board has adopted what it considers reasonable size units as the minimum quantities which may be sold on one order. They are as follows: apples, 1 bushel; blackberries, 1 handle basket or equivalent; asparagus, 1 rate; bananas, 1 bunch; beans, 1 bushel; beets, 12 bunches; beets, bulk, 12 bushels; blackberries, 2 gallons; boysenberries, 2 gallons; cabbage, 50 pounds; cantaloupes, 1 bushel or 1 crate; carrots, 12 bunches, or in bulk, 12 bushels; cauliflower, 1 crate; celery, 12 bunches; cucumbers, 50; collards, 12 bunches; corn, 5 dozen ears; popcorn, 12 bushels; cucumbers, 12 bushels; egg plant, 1 bushel; figs, 2 gallons; onion plants, 12 bunches; oranges, 4/5 bushel.

Parsnips, 12 bunches; parsnips, 12 bunches; peaches, 1 bushel; pears, 1 box or 1 bushel; peanuts, 1/2 bushel; peas, 1 bushel; pecans, 25 pounds; peppers, 1 handle basket; plums, 2 gallons; pineapple, 1 dozen; Irish potatoes, 50 pounds; sweet potatoes, 1 bushel; pumpkin, 16 dozen; radishes, 12 bunches; rutabagas, 50 pounds.

Ford hooks, 1 handle basket; grapes, 1 handle basket; grapefruit, 4/5 bushel; garlic, 1 handle basket; honey, 10 lb. can; lemons, 4/5 bushel; mustard greens, 12 bunches; okra, 1 handle basket; green onions, 12 bunches; onions, 50 pounds.

FEES

The following rental and parking fees have been adopted by the Board:

For Mississippi farmers: Stall rents are \$16.00 per month, or .75 cents per day; use of selling grounds for trucks not under sheds is .50 cents per day, and for pick-up trucks not under sheds .25 cents per day.

For transient trucks loaded with foreign farm products: Truck space not under sheds \$1.50 per day, and for pick-up trucks not under sheds the charge is .75 cents per day.

S. W. Box, market manager, and Leon Scott, chief inspector and assistant manager, will be in charge of the market and collections of fees. The market will be open 24 hours per day, but buying periods will be determined later.

One of two farmers' sheds which will provide 50 stalls for produce. The brick administration building, with cafeteria and barber shop, is shown right top.

A few producers had already moved into stalls and set up for business before official dedication ceremonies July 31st. Here a Mississippi orchardist offers peaches at wholesale.

The huge merchants building is served on the south side by a truck ramp and loading platform, and on the north side by a spur track of the Illinois Central Railroad.

In addition to the two farmers' sheds, the merchants' shed, and which is expected to be ready for the packing shed, the Market occupancy by March 1, 1949, will house an administration building, a poultry dressing building, with cafeteria and modern barber shop, plus administrative offices and news service facilities.
